

# Remote Control Commands

## Playlist

All commands for the playlist have the form `PLAYLIST x <command>` or `AUTOMATION x <command>`, where x is the number of the playlist, starting with 1 (the first and often only playlist).

Cursor and item commands:

- `PLAYLIST 1 CURSOR UP` - Move the cursor down.
- `PLAYLIST 1 CURSOR DOWN` - Move the cursor down.
- `PLAYLIST 1 MOVE UP` - Move the currently selected item up once space in the playlist.
- `PLAYLIST 1 MOVE DOWN` - Move the currently selected item down once space in the playlist.
- `PLAYLIST 1 DELETE` - Delete the currently selected item.
- `PLAYLIST 1 EDIT` - Open the Properties dialog for the currently selected item.
- `PLAYLIST 1 EXTRAPFL ON` - Open the Cue Editor in the Properties dialog and start PFL playback (formerly called "Extra PFL").
- `PLAYLIST 1 EXTRAPFL OFF` - Close Cue Editor.
- `PLAYLIST 1 EXTRAPFL ON/OFF` - Toggle Cue Editor.
- `PLAYLIST 1 MARKASPLAYED` - Mark the currently selected item as played.
- `PLAYLIST 1 RECYCLE` - Mark the currently selected item as unplayed.
- `PLAYLIST 1 RECYCLE ALL` - Mark all items as unplayed.
- `PLAYLIST 1 RECYCLEFROMHERE` - Mark all items below and including the currently selected one as unplayed.
- `PLAYLIST 1 SKIPTOHERE` - Mark all items above the currently selected item as skipped.
- `PLAYLIST 1 SWAP x y` - Swap the items of two (loaded) players.

Operations on the playlist:

- `PLAYLIST 1 LOAD <Filename>` - Load a playlist file.
- `PLAYLIST 1 INSERT <Filename>` - Insert a playlist file after the current item.
- `PLAYLIST 1 APPEND <Filename>` - Append a playlist file.
- `PLAYLIST 1 SAVE <Filename>` - Save to playlist file.
- `PLAYLIST 1 CHECK` - Run an Error Check on the playlist, report result to System Log.
- `PLAYLIST 1 MIXEDITOR SELECTION` - Open the Mix Editor for the current selection.
- `PLAYLIST 1 MIXEDITOR PREVIOUS` - Open the Mix Editor for the currently selected and the previous item.
- `PLAYLIST 1 MIXEDITOR NEXT` - Open the Mix Editor for the currently selected and the subsequent item.
- `PLAYLIST 1 NEXT` - Execute the NEXT function for ASSIST mode.
- `PLAYLIST 1 EVENTS` - Open the Event Scheduler dialog.

Commands that enable/disable/toggle options:

- `PLAYLIST 1 OPTION <Name> ON` - Enable a configuration option
- `PLAYLIST 1 OPTION <Name> OFF` - Disable a configuration option
- `PLAYLIST 1 OPTION <Name> ON/OFF` - Toggle a configuration option
- `PLAYLIST 1 GUIOPTION <Name> ON` - Enable a GUI option
- `PLAYLIST 1 GUIOPTION <Name> OFF` - Disable a GUI option
- `PLAYLIST 1 GUIOPTION <Name> ON/OFF` - Toggle a GUI option
- `PLAYLIST 1 PROGRESSBAR <Name> ON` - Enable a progress bar option
- `PLAYLIST 1 PROGRESSBAR <Name> OFF` - Disable a progress bar option
- `PLAYLIST 1 PROGRESSBAR <Name> ON/OFF` - Toggle a progress bar option

Commands that control the automation:

- `AUTOMATION 1 ON` - Enable automation
- `AUTOMATION 1 OFF` - Disable automation
- `AUTOMATION 1 ON/OFF` - Toggle automation
- `AUTOMATION 1 PLAY` - Start automation playback
- `AUTOMATION 1 STOP` - Stop automation playback immediately (fade out current song)
- `AUTOMATION 1 BREAK` - Stop automation after current song.
- `AUTOMATION 1 NEXT` - Skip to next song
- `AUTOMATION 1 FORCENEXT` - Sktip to next song, even if it is marked as skipped by backtiming.
